CENTRO CULTURALE LEPANTO

ESTABLISHED IN ROME IN 1982
FABIO BERNABELI, PRESIDENT AND FOUNDER

Centro Culturale Lepanto, after the 1571 naval battle which saved Christendom from the Ottoman invasion, is a non profit organization independent of political parties, working to promote the principles and institutions of Christian Civilisation.

Our organization represents a reference point of conservative traditional minded thought and action, whose inspiration is based on the perennial Magisterium of the Catholic Church.

Promotes wide ranging public awareness campaigns, conferences and symposia, producing and disseminating publications nationally and internationally.

Since its inception in 1982, the Centro Culturale Lepanto has always striven to foster and consolidate the alliance between both sides of the Atlantic, to defend and uphold the common Christian heritage.
